

Gas Meter Change Program

The Village of Morton Gas Department changes meters annually in the distribution system. The frequency of changes is as follows:

Small residential meters every 20-30 years

Mid-sized meters every 10 years

Large meters every 5 years

➤ ***As of 2017, there are 6,100 meters in the system***

A Village of Morton Gas employee will try to contact you when your meter is due for changing. If you receive a note on your door, please call in promptly and schedule a time for the meter change. Only trained and qualified Village of Morton Gas employees will do the work of replacing gas meters. Employees carry Village of Morton ID's.

Ÿ

When replacing a gas meter, the gas will have to be shut-off. The customer will have to be at home in order to relight gas appliances. This process usually takes less than 20 minutes.

Note: The Village will make every attempt to safeguard the customer, and put into service the appliances. The Village provides gas to the appliance and is not liable for the operation of the appliance after the work is performed. Municipal code 8-2-19.
