

SUMMARY OF VILLAGE OF MORTON ELECTRICITY AGGREGATION

What the program does

- The Village is acting as a conduit to allow the citizens to save money by combining their purchase power with other municipalities.
- Good Energy is the consultant to the Village and will assist the Village in securing bids from electrical suppliers.
- The goal is to reduce the cost to residents and small businesses based on one (1) bid from a supplier.
- After bids are received, the Village will determine if there would be a savings and the program will only be implemented if that is the case. The Village will choose one supplier.

To the consumer

- If the consumer desires to stay in the program, nothing needs to be done. He or she is an automatic participant.
- If the consumer desires to opt out of the program, the consumer will have a period of fifteen (15) days after notification from the supplier informing them of that option.
- For consumers who desire to stay in the program, they will continue to receive one (1) bill from Ameren.
- The consumer will pay Ameren as he or she did in the past and Ameren's credit policies and collection procedures will apply.
- If a consumer initially opts out, he or she will be able to opt back in with a payment of a small fee.
- If a consumer initially stays in the program, but later decides he or she wants to cancel, he or she may do so with a Twenty-Five Dollar (25.00) fee.
- New residents will need to elect to participate in the program.

The above is a brief of the summary of the basic points of the plan. For a complete explanation in detail, your attention is directed to the Plan Operation and Governance.
