Residential Deck Guidelines & Information

Installation Requirements

- A deck must be constructed in compliance with the 2015 Edition of the International Building Code.
- It is the responsibility of the contractor to obtain and understand the required construction codes for the construction of the deck. See 2015 Edition of the International Building Code.
- The deck cannot be in an easement. The deck may be in the front yard if it is attached to the primary structure, but it cannot encroach the front yard building setback for the zoning district.
- A deck that is attached to the primary structure and which meets the required rear yard setback shall not be considered an accessory use. Should the deck encroach into the required rear yard, subject to the other requirements of this section, it shall be counted as one (1) accessory use.

Permit Information

- Applicants need to provide a site plan of the lot showing, the house with the proposed deck and dimensions of the deck, all setback dimensions to the rear and side property lines along with other structures.
- The applicant will have ninety (90) days from the issue date in order to start the project. If it is not started within that time frame, the applicant is required to obtain another permit.
- The permit is valid for one hundred eighty (180) days from the issue date.
- An inspection will be done at the end of the one hundred eighty (180) days.
- The permit fee for a deck is \$50.00.
